

TECHNICAL DATA SHEET (TDS)

Product Name: **SHELL ENGINE CLEANER**
Code: **CRX268**

Supplier: Kemetyl Polska, Sp. z o.o.,
Al. Jerozolimskie 146,
02-305 Warsaw, Poland
Phone no. +48 22 822 5390

1. Composition/information on ingredients

Shell Engine Cleaner is a mixture of hydrocarbons and surfactants

2. Application

Shell Engine Cleaner quickly and easily removes even the most congealed grease, oil, and grime and is safe for all vehicle parts it comes in contact with.

3. How to use

Shell Engine Cleaner should be used when the engine is off and cold. Shake the container, spray the engine surface and leave for 1-2 minutes. Do not allow to dry. Do not use on lacquered surfaces. Rinse with plenty of water.

Follow car manufacturer's recommendations.

4. Properties

Form:	liquid
Color:	colorless
Odor:	characteristic
Boiling point (°C):	type 100
Freezing point (°C):	type 0
Density at 20°C (g/mL):	type 0.986
Auto-ignition temperature (°C):	> 210°C
pH:	5
Solubility in water:	soluble

5. Storage

Store in a cool, dry, well-ventilated place (< 35°C) away from oxidizing agents. Store in original container only. Protect from freezing.

6. Classification

Product classified as irritant. UN No.: not available

For details, see the product's safety data sheet. A safety data sheet compliant with regulations in force is available.

Issue date: 2015/10/05

Information presented in this technical data sheet are based on our knowledge and expertise at time of issue. Due to the variability of factors which may affect the product when in use, data presented herein do not exempt the user from obligation to carry out their own tests and experiments; they are also not intended to indicate any legally binding obligations or fitness for any particular purposes. Product users are responsible for compliance with all property rights and relevant regulations in force.
